

PITCH PRESENTATION

# Healthy Screen Habits, Real Rewards.

Gamifying digital wellness for the next generation. We turn screen limit-setting from a chore into a rewarding routine.

PREPARED FOR

Seed Capital Event

PROJECT STAGE

Release Ready App

THE PROBLEM

# The Screen Time Crisis

Smartphone addiction is at an all-time high, severely impacting mental health, sleep, and productivity.

## 7.2 Hours

Average daily screen time of Gen Z, leading to decreased attention spans and cognitive fatigue.

## Mental Strain

Rising screen habits correlate directly with anxiety, digital burnout, and sleep disorders.

## Inert Solutions

Existing trackers (iOS/Android) are passive, dry, and easily bypassed without positive reinforcement.

THE SOLUTION

# GenGhealth: Incentivized Focus

We transform digital restraint into a gamified reward loop, giving users a tangible reason to lock their screens.

- 01

Active Tracking & Analysis

Passive tracking monitors application categories and visualizes usage cleanly.
- 02

The Gamified Points Engine

Users receive points hourly for maintaining usage below customized, healthy limits.
- 03

Real Tangible Rewards

Points convert instantly into gift cards (Amazon, Google Play, etc.) within the app.

REWARD TIER

+500 Points

Daily Goal Completed!

You stayed under your 2-hour social media cap today. Keep it up tomorrow to build a streak!

Streak: 5 Days

Level 3

PRODUCT FLOW

# How It Works

A seamless, three-step user experience designed for immediate engagement.

1

## Install & Grant Access

Download the native Android app and securely grant local usage access permission.

2

## Set Limits & Keep Goals

Set custom daily caps. The points engine tracks adherence and rewards consistency.

3

## Redeem Partner Rewards

Cash in points for digital vouchers from major partner brands directly in the app.

TECHNOLOGY

# Engineered for Performance & Security

Built on a secure, light, and optimized native architecture that guarantees zero battery drain and robust anti-cheating protection.

**Native Kotlin & Jetpack Compose**

Guarantees smooth performance, responsive rendering, and deep system-level integration.

**Firebase Firestore Backend**

Real-time, scalable data syncing, secure user authentication, and transaction logging.

**MidnightRewardWorker**

Background worker processes daily metrics and securely distributes points at midnight.

**Anti-Spoof Validation**

Client-side hashing and network-level double-checks protect reward verification from abuse.

MARKET SIZE

# A Massive, Rapidly Growing Sector

Digital wellness is transitioning from a niche category to a mainstream necessity.

18%

CAGR of Digital Wellness Industry

Accelerated demand for wellness tech is driven by corporate and individual post-pandemic health initiatives.

MONETIZATION

## How We Generate Revenue

A sustainable model with multiple high-margin revenue streams that scale alongside user growth.

### Brand Partnerships

Partner brands sponsor specific goals or feature slots, driving customer acquisition directly to their gift cards.

10-15% commission per sale

### Rewarded Video Ads

Integrated AppOpenAdManager triggers relevant, non-disruptive ads for point multipliers or boosters.

High eCPM Ad Revenue

### Premium Subscriptions

Users unlock custom categories, advanced analytics, ad-free layouts, and premium reward catalogs.

## GO-TO-MARKET

# Double-Sided Viral Loop

By using native psychological incentives, we scale organically at a fraction of the usual user acquisition cost.

### 500-Point Referral Engine

Both the sender and referee receive 500 bonus points instantly when a new account is verified.

### Social Flex Integrations

Clean, visual "screen reduction" sharecards formatted perfectly for TikTok, Snapchat, and Instagram stories.

### Community Challenges

School and workplace-level focus leagues that drive localized group signups organically.

MARKET CONTEXT

# Market Landscape

How GenGhealth stacks up against passive OS trackers, general reward programs, and simple focus apps.

| Feature                   | GenGhealth | Apple/Android Trackers | Sweatcoin/Mistplay | Forest/Flora |
|---------------------------|------------|------------------------|--------------------|--------------|
| Real Gift Cards / Rewards | ✓          | ✗                      | ✓                  | ✗            |
| Screen Limit Incentives   | ✓          | ✗                      | ✗                  | ✓            |
| Gamified Focus Loop       | ✓          | ✗                      | ✓                  | ✓            |
| Double-Sided Referrals    | ✓          | ✗                      | ✓                  | ✗            |

THE OPPORTUNITY

# The Investment Ask: **Rs. 1,00,000**

We are raising a seed grant to bootstrap initial user acquisition and reward capital, setting the foundation for viral growth.

**50%**

## Marketing & GTM

Rs. 50,000 to launch micro-influencer campaigns and drive early referral invites.

**30%**

## Initial Reward Pool

Rs. 30,000 to pre-fund gift card inventories and ensure instant payouts for early adopters.

**20%**

## Ops & Backend

Rs. 20,000 for server hosting, Firebase database overhead, and testing resources.

Let's build a healthier, more focused generation together.
